| APPROVAL OF STATE ENGINEER |
| This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: |
| source as heretofore granted under Permit 48017 is issued subject to the terms and conditions imposed in said Permit 48017 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit is supplemental to 0.75 acres of water rights under Carson River Claim 276. The period of use of this permit is from April 1 to October 1 of each year. |
| The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not |
| to exceed 0.0249 cubic feet per second, but not to exceed 9.026 |
| acre-feet seasonally. |
| Work must be prosecuted with reasonable diligence and be completed on or before June 19, 1987 |
| Proof of completion of work shall be filed before. July 19, 1987 |
| Application of water to beneficial use shall be made on or before |
| Proof of the application of water to beneficial use shall be filed on or before. July 19, 1989 |
